

SOUDAL

BUILD THE FUTURE

The Soudal Group is the largest independent European manufacturer of sealants, adhesives and polyurethane foams for professional and private users. This Belgian family business, based in Turnhout and founded by Vic Swerts in 1966, has developed into an international player and expert in chemical construction specialities.

The group has 23 production branches on 5 continents, sales offices in 45 different countries and employs around 3,654 people worldwide. A long-term vision for innovation – with substantial investment in R&D – and adaptations to local market requirements have resulted in the success of the Soudal Group.

The research in and development of new products, product technologies and production methods is in our genes. A team of highly qualified researchers, engineers and technicians is continuously working on the development of new products and applications adapted to the specific requirements of customers in various countries. This has resulted in a number of pioneering innovative products, which have helped to strengthen the market position of Soudal. Innovation is, therefore, the driver for organic growth at the Soudal Group.

Soudaseal AP ALL PURPOSE SMX® HYBRID SEALANT & ADHESIVE

Soudaseal AP (All Purpose) is a one-part, high quality, gun grade, moisture curing, elastomeric waterproofing and sealing **SMX® hybrid sealant & adhesive** designed for general construction. With +/- 35% movement capabilities, it has excellent bond strength to nearly all porous and non-porous substrates without the use of a primer.

- Great flexibility
- Combine with Soudaseal FC to create an effective low cost application option
- Great for edge sealing of boards
- Easy to tool and finish
- Great adhesion to concrete, wood, and conventional types of foam boards
- Can be used on damp or moist substrates
- Solvent free, won't degrade foam boards

APPLICATION

- Sealing between window and door frames
- Roofing & siding
- Concrete & masonry
- General construction
- Expansion and connection joints in the building industry
- Sealing of joints in prefabricated buildings
- Movement joints in high rise construction
- Flexible joints in automotive applications
- Applications that should be painted with water-based paints

PACKAGING*

- 10.1 fl. oz. cartridge
- 20 fl. oz. sausage

COLORS*

- White, Off White, Tan, Stone, Limestone, Aluminum Gray, Gray, Medium Bronze, Special Bronze, Black, Redwood, Hunter Green

Bonds well to foam & foam facers

Non-corrosive and remains flexible

Soudaseal FC ALL PURPOSE SMX® HYBRID SEALANT & ADHESIVE

Soudaseal FC is a **fast cure / quick grab SMX® hybrid adhesive / sealant** with exceptional green strength and +/- 25% movement capabilities.

- Very high initial tack and "green strength"
- Great for instantaneous bond of boards to wood or concrete, no additional support or waiting needed
- Good flexibility
- Great adhesion to concrete, wood, and conventional types of foam boards
- Solvent free, won't degrade foam boards

APPLICATION

- Elastic bonding of panels, profiles and other pieces on the most common substrates
- Sealing and bonding in building and construction industry and metal working industry
- Bonding applications in the automotive industry (cars, trailers, coaches, caravans, trains)
- Bonding applications in vibrating constructions
- Can be used for mirror installations with additional mechanical support

PACKAGING*

- 10.1 fl. oz. cartridge
- 20 fl. oz. sausage

COLORS*

- White, Off White, Tan, Stone, Limestone, Aluminum Gray, Gray, Medium Bronze, Special Bronze, Black, Redwood, Hunter Green

Soudabond Easy SELF EXPANDING POLYURETHANE ADHESIVE

Soudabond Easy is a fast curing, ready-to-use, single component, self-expanding **polyurethane adhesive** for clean, efficient and economical permanent bonding of insulation panels and plasterboard in building and construction.

- Easy application... apply Soudabond Easy, wait 5 minutes, then bond panels
- 1 can of Soudabond Easy can replace up to 12 adhesive cartridges
- Solvent free, won't degrade foam boards
- Time and money savings
- Seals between boards
- Great adhesion to concrete, wood, and conventional types of foam boards

APPLICATION

- Clean, efficient and economical permanent bonding of insulation panels
- Suitable for bonding polystyrene (EPS + XPS), polyurethane (PUR/PIR) and phenol resin foam based insulation panels for flat roofs, perimeters, facades, insulation/drain elements, cellar ceilings, internal insulation, etc.
- Fills cavities between individual thermal insulation panels.
- Drywall adhesive
- Insulating roof panels
- Gluing decorative elements

PACKAGING*

- 20 oz. aerosol can **Genius Gun****

COLORS*

- Champagne

** Manufactured under Patent No. 10106309

Application and installation made easy
